

POINT5 MK II system consists of:

4 Satellite Speakers

1 Center Channel

A PERFORMANCE ENHANCED SYSTEM... athena's POINT5 MK II sound system has been conceived to dramatically enhance your home theater and music listening pleasure. Capitalizing on athena's breakthrough research and development in acoustics and speaker engineering, this system is designed inside out to work together perfectly, with such features as timbre-matched drivers and Medium Density Fiberboard (MDF) cabinets to minimize resonance and enrich the deep bass. The POINT5 MK II system comes complete with four S.5 satellite speakers, and the matching C.5 center channel. For bass enhancement, add the matching active subwoofers AS-P300 or AS-P400. Both subwoofers feature athena's exclusive SCT control for perfect subwoofer to speaker blending, which will provide the sound of large tower speakers in a small subwoofer satellite combination. **For performance enhanced music and home theater sound, get to the point with POINT5 MKII.**

POINT5 MK II S.5 Satellites

POINT5 MKII stand (optional)

POINT5 MKII C.5 Center Channel

POINT5 MKII stand (optional)

Recommended subwoofer (optional)
AS-P300/AS-P400

A STYLE THAT'S ALL YOUR OWN... athena TECHNOLOGIES™ POINT5 MK II sound system has also been intuitively designed to let you create your own style. Complement your décor with the sleek, sophisticated styling of a silver baffle with a high gloss black finish. If you select the components separately, black baffles are available. And because these speakers are magnetically shielded, you can place them virtually anywhere you like. Want to take performance even further? The S.5 satellites from this system can be used as rear channel speakers with athena's SCT™ (System Creation Technology) series. **Exceptional sound performance to suit your senses, style and budget. That's the point of POINT5 MKII.**

At a great price point!

EFFORTLESS: "Hey, my life's complicated enough without having to worry about how to set up a home theater sound system. I wanted something that I could bring home and pretty much plug in and start enjoying right off the bat. And with wall brackets already built in, my POINT5 MKII speakers were easy to set up where I wanted them. What could be easier?"

THRILLING: "I'm into suspense and action adventure movies. So I wanted a home theater sound system that could match the action blow for blow. I got it with POINT5 MKII. It's brilliant as a system, but the satellite speakers are so amazing on their own, I created a mini sound system for my home office. **So at work or play, I never have a dull moment.**"

S.5 Speaker | FEATURES: • Small, High Power Full-Range speaker solution • S.5 is timbre-matched to the other "S" models • Magnetically Shielded – all drivers • Built-In Wall Mounting System for flexible and secure wall mounting - Will allow horizontal and vertical movement – no tools required! • Bass Reflex design – Rear vented

COMPONENTS: • 1-1" Teteron Dome Tweeter • 1-4" Composite Cone Woofer • MDF Construction • Composite Resin Front and Rear Baffles • Binding Post terminals

SPECIFICATIONS: • Frequency response: 80-20kHz +/- 3dB • Power handling: 100 watts per channel RMS • Sensitivity: 86dB anechoic – 89 dB room measurement • Crossover point: 2.0kHz • Impedance: 8 ohms compatible • Dimensions: - Width: 5-3/4" (14.6 cm) - Height: 8-1/2" (21.6 cm) - Depth: 6-1/4" (15.9 cm) - Weight: 6 lbs (2.7 kg) each • Color: High Gloss Black with Silver or Black Injection Molded Baffles

C.5 Center Channel Speaker | FEATURES: • Small – High Power center channel speaker to match the S.5 speaker • C.5 is timbre matched to the other "S" models as well • Magnetically Shielded – all drivers • Key-Way wall mount • Bass Reflex design – Dual rear vents

COMPONENTS: • 1-1" Teteron Dome Tweeter • 2-4" Composite Cone Woofers • MDF Construction • Composite Resin Front and Rear Baffles • Binding Post terminals

SPECIFICATIONS: • Frequency Response: 80-20kHz +/- 3dB • Power Handling: 100 watts per channel RMS • Sensitivity: 86dB anechoic – 89 dB room measurement • Crossover Point: 2.0kHz • Impedance: 8 ohms compatible • Dimensions: - Width: 15" (38.1 cm) - Height: 5-5/8" (14.3 cm) - Depth: 6-1/4" (15.6 cm) - Weight: 9.5 lbs (4.3 kg) each • Color: High Gloss Black with Silver or Black Injection Molded Baffles

Recommended subwoofers (optional)

AS-P300 – 300 watt 8" vented subwoofer

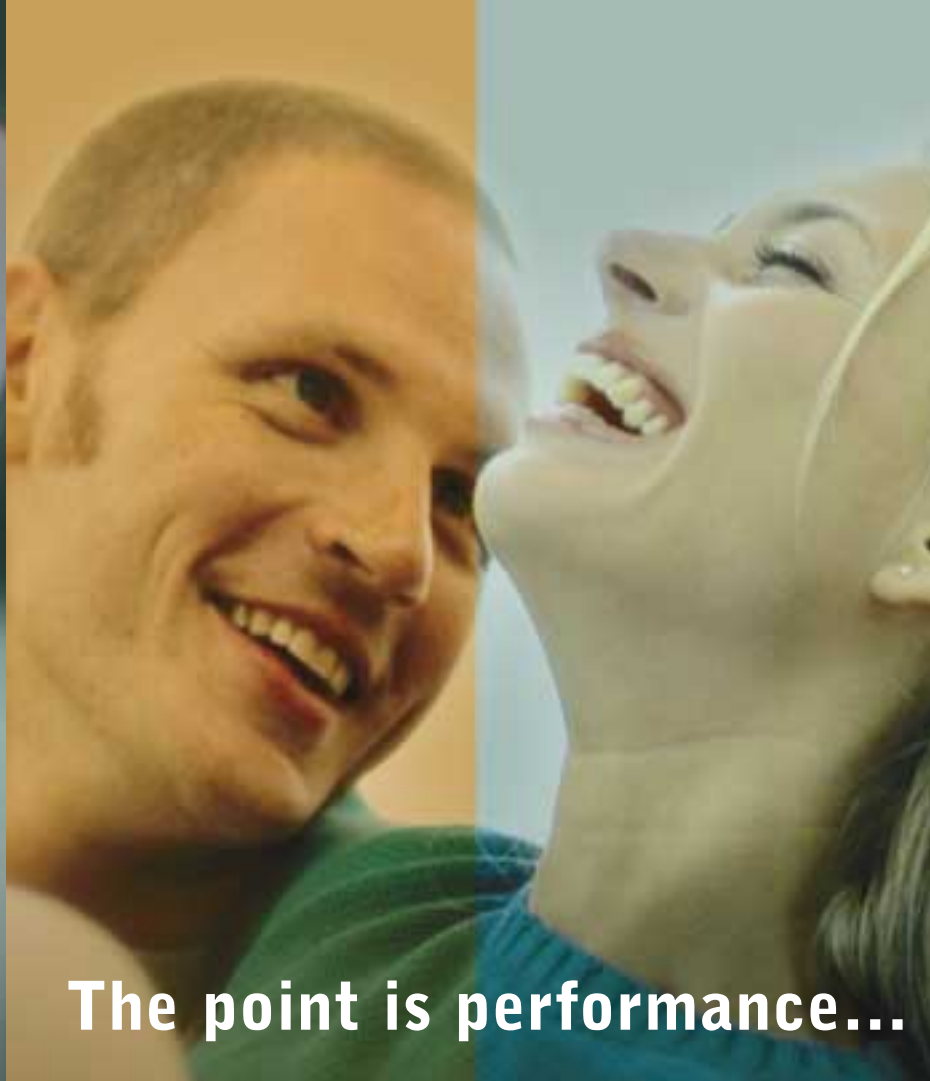

AS-P400 – 400 watt 10" vented subwoofer

(used for rooms over 400 sq feet in size)

Both models feature athena TECHNOLOGIES™ exclusive SCT control, for precise blending of the POINT5MK II system to the subwoofer.

Create your sound.

The point is performance...

BALANCE: "We just got married, but we still have very individual tastes. For our home theatre sound system, I wanted lots of power; she didn't want to be overpowered. POINT5 MKII was the clear winner. I was impressed by the technology that makes this a true system. And Lisa fell for the performance. **One listen and we knew we'd found the balance we were looking for.**"

IRRESISTIBLE: "When Russell and I first listened to POINT5 MKII, everything clicked. The sound. The styling. The value. I'll admit we don't always pick the same movies or listen to the same music, but when we experienced athena's POINT5 MKII sound system, we were both on the same wavelength. **Best of all, it was so easy to set up, all we had to do was add popcorn.**"
